

Junior Honors
Fall, 2003
Beck
Assignment 1

Spend between one and two hours trying to ascertain what an NYU Honors Thesis looks like. Use whatever resources you like to do this; use your ingenuity to figure out interesting resources you can use given the time constraint.

You must be ready on Monday to take part in a discussion of what you found out. I will experiment by allowing for general discussion without requiring specific presentations. Please note that since everyone has done the research, I will not hesitate to call on people.

On Monday you must submit a 1-2 page write-up of what an NYU Honors Thesis looks like (submit in class, and email to me by 4PM).

Please note: I am new to NYU, so genuinely interested to hear what you have to say.

This assignment is not graded, but it must be completed.
