The NYU Aging Incubator is pleased to announce its second annual Innovators in Aging Award competition for NYU students to develop an innovative tool or resource that will enhance research, policy or lifestyle for the older population as their lifespan increases.

The winning team will receive up to $10,000 (via a reimbursement process) to be used towards carrying out their proposal.

PROPOSALS WILL BE JUDGED ON:

Innovation – The tool/resource has to introduce a new method, approach, idea, product, etc. OR significantly enhance an existing tool/resource.

Impact – The effect of the tool/resource on older adults in terms of (but not limited to) research, policy, or lifestyle.

Interdisciplinary – Clearly define how the tool/resource aligns with the mission of the NYU Aging Incubator, which includes the development of a sustainable interdisciplinary approach to an aging society is clearly defined.

To view the mission of the Aging Incubator click here.

Feasibility – Demonstrate that tool/resource can be completed during the 2019-20 academic year.
