Note: each class is approximately 1 hour in duration

**Lab Safety** – Required for new employees and students working in laboratories. Online refresher training is available in NYU Classes.

**Hazardous Waste** – Required annually for individuals who generate, handle, or store hazardous waste. Online training for Hazardous Waste is available in NYU Classes. Anyone who has attended in-class training within the past year may request access to the online training.

**Biosafety/Bloodborne Pathogens** – Required for work with microorganisms, any cell lines or body fluids, or recombinant DNA. Annual refresher training is required for work with human blood, body fluids, cell lines or unfixed tissue; infectious (capable of causing disease in healthy adults) microorganisms; or viral vectors.
Online training for Biosafety/Bloodborne Pathogens is available in NYU Classes. Anyone who has attended in-class training within the past year may request access to the online training.

**IATA/Shipping of Biological Materials** - Required every two years for all individuals who ship or receive biological materials and/or dry ice.
