Abnormal Psychology Spring 2014
Wednesday 2pm-5pm
Location to be confirmed.

Prerequisites
None

Class Description
This course provides an overview of the field of abnormal psychology. The focus is on forms of psychopathology, their causes, and diagnostic and treatment issues.

The course is delivered in a traditional lecture format, with DVD material, student presentations of specific papers and book reviews, and samples of psychological tests. Student participation and group discussion are encouraged and expected. Handouts will be provided. Student presentation of material is invited, usually one presentation each work once the course is up and running, organised at least a week in advance, on a topic of the student’s choice. It is optional to make a presentation.

Desired Outcomes
1. Course participants will gain knowledge of the forms of mental disorder.
2. Course participants will develop a conceptual framework for understanding mental disorder and abnormal behavior. This includes learning about the history of the field, different explanatory models (e.g., biological, behavioral, psychodynamic, cognitive), current controversies in the field.
3. Course participants will develop understanding of diagnostic and treatment issues by analysing case material.
4. It is hoped that the course will inspire some students to engage in further study of abnormal psychology; for example, by entering a graduate school program in clinical psychology or another mental-health-related field.

Assessment Components
1. One coursework essay (1,200 words), 30% of the final mark
2. EITHER a) A printed copy of a 15-20 minute class presentation (Note that a Turnitin receipt is not required for the printed presentation submission). The date and timing of the class presentation will be arranged individually with the course instructor. It can be done in session 14 if wished. This may be presented as the first piece of coursework (instead of an essay) if it is ready in time.
OR b) a further 1,200 word essay

30% of the final mark.

3. Examination: 40% of final mark.

Failure to submit or fulfil any required course component results in failure of the class. Failure to submit or fulfil any required course component results in failure of the class.

Required Text(s)

Supplemental Texts(s) (not required to purchase as copies are in NYU-L Library)

**SUGGESTED BIOGRAPHICAL AND OTHER ILLUSTRATIVE CASE MATERIAL**

The following are suggested as illustrative case material to be used if wished. It is not a complete list, and you may find other illustrative material which is just as good or better!

Kesey, Ken. One Flew over the Cuckoo’s Nest. Picador, 1973 (or reprint).

**DVDs** (we will watch excerpts of some of these, and discuss these during the course, and a copy of each is available in the library):

*One Flew over the Cuckoo’s Nest*, (1975) Directed by Forman.

*Shine* (1997) Directed by Hicks.

*The Secret Life of the Manic Depressive* (2005) Directed by Fry

Further illustrative material will be shown in class, and (optionally) you might wish to look at YouTube which can be a valuable source of personal accounts (search using the name of the psychiatric condition you are interested in). Also, the Royal College of Psychiatrists hosts a blog offering descriptions and discussions of some movies featuring psychiatric issues: [http://www.rcpsych.ac.uk/discoverpsychiatry/mindsonfilmblog.aspx](http://www.rcpsych.ac.uk/discoverpsychiatry/mindsonfilmblog.aspx)

While the course books and articles will provide enough material to write your essays and case study adequately, the quality may be improved by reference to some relevant material from journals, books,
and appropriate online sources. The most convenient way of doing this is by searching the internet. You will get the most scholarly results from PsycINFO which can be accessible from NYUHome or Senate House Library. (www.ull.ac.uk). MedLine, Web of Knowledge, http://scholar.google.com and http://books.google.com may also be helpful. Abstracts are almost always available from these sources, and often give sufficient information, and some full text articles are accessible.

Warning: books.google will not let you print the pages (they want to persuade you to buy the book) – so you will need to take notes, or get the book from a library if necessary. A regular Google (or other general search engine) search can sometimes be useful, but hits cannot always be used as scholarly sources. Note that Wikipedia is not always regarded as a reliable source for academic purposes, though for psychology and psychiatry it is normally good, and can point you to (normally) reliable sources.

If using an electronic copy of this syllabus, the links should all work if you are online (ctrl+click).

Remember that cutting and pasting material into an essay without acknowledging the source is regarded as plagiarism, unless you make clear that you are quoting, and acknowledge the source. It is normally preferable to summarise and paraphrase, again acknowledging the source/s of the points being made. Only use quotations where these enhance the points you are making. Remember to use quotation marks.

EXAMINATION

Session 15

May 21

Classroom Etiquette

Toilet breaks should be taken before or after class or during class breaks.

Food & drink, including gum, are not to be consumed in class.

Mobile phones should be set on silent and should not be used in class unless in emergencies.

Laptops, iPads and Tablets are only to be used with the express permission of the teacher.

Please kindly dispose of rubbish in the bins provided.

Required Co-curricular Activities

None. It will be understood that there are significant ethical problems involved with groups of students entering and observing psychiatric treatment facilities, so unfortunately such visits cannot be arranged. Illustrative video material will be shown in class, and (optionally) you might wish to look at YouTube which can be a valuable source of personal accounts.

Suggested Co-curricular Activities

Students will be advised of any public lectures, exhibitions and seminars of interest, as they come to the attention of the course leader. These will be optional.
Kate Loewenthal: Kate taught psychology at Royal Holloway (formerly Bedford College) for over thirty years, and has also taught in the University of Wales at Bangor, the City University, and Kings College London. She is currently Emeritus Professor of Psychology at Royal Holloway, London University, Visiting Professor at Glyndwr University (Wales), and Heythrop College (London University), and here – NYU in London! Her research has focused on social factors in mental health, and particularly how religious and cultural factors can affect mental health. She has been involved a range of community work. She has published several books (the last to appear was Religion, Culture and Mental Health: Cambridge University Press) and numerous articles, edits the journal Mental Health, Religion and Culture, and is frequently invited to speak at conferences and professional training sessions.

NYU LONDON ACADEMIC POLICIES

Plagiarism Policy

Plagiarism: the presentation of another piece of work or words, ideas, judgments, images or data, in whole or in part, as though they were originally created by you for the assignment, whether intentionally or unintentionally, constitutes an act of plagiarism.

Please refer to the Student Handbook for full details of the plagiarism policy.

All students must submit an electronic copy of each piece of their written work to www.turnitin.com and hand in a printed copy with the digital receipt to their professor. Late submission of work rules apply to both the paper and electronic submission and failure to submit either copy of your work will result in automatic failure in the assignment and possible failure in the class.

Electronic Submission

The Turnitin database will be searched for the purpose of comparison with other students’ work or with other pre-existing writing or publications, and other academic institutions may also search it.

In order for you to be able to submit your work onto the Turnitin website, you will need to set up an account:

1) Go onto the Turnitin website http://www.turnitin.com
2) Click ‘Create Account’ in the top right hand corner
3) Select user type of ‘student’
4) Enter your class ID & Turnitin class enrolment password (these will be e-mailed to you after the drop/add period, or contact academics@nyu.ac.uk if you have misplaced these).
5) Follow the online instructions to create your profile.

To submit your work for class, you will then need to:

1) Log in to the Turnitin website
2) Enter your class by clicking on the class name
3) Next to the piece of work you are submitting (please confirm the due date), click on the ‘submit’ icon
4) Enter the title of your piece of work
5) Browse for the file to upload from wherever you have saved it (USB drive, etc.), please ensure your work is in Word or PDF format, and click ‘submit’
6) Click ‘yes, submit’ to confirm you have selected the correct paper (or ‘no, go back’ to retry)
7) You will then have submitted your essay onto the Turnitin website.
8) Please print your digital receipt and attach this to the hard copy of your paper before you submit it to your professor (this digital receipt appears on the web site, immediately after you submit your paper and is also sent to your e-mail address). Please also note that when a paper is submitted to Turnitin all formatting, images, graphics, graphs, charts, and drawings are removed from the paper so that the program can read it accurately. Please do not print the paper in this form to submit to your lecturers, as it is obviously pretty difficult to read! You can still access the exact file you uploaded by clicking on the ‘file’ icon in the ‘content’ column.
Please also see the Late Submission of Work policy, above.

Students must retain an electronic copy of their work for one month after their grades are posted online on Albert and must supply an electronic copy of their work if requested to do so by NYU in London. **Not submitting a copy of a piece of work upon request will result in automatic failure in the assignment and possible failure in the class.** NYU in London may submit in an electronic form the work of any student to a database for use in the detection of plagiarism, without further prior notification to the student. Penalties for confirmed cases of plagiarism are set out in the Student Handbook.

*Remember that for this course only, it has been agreed that Turnitin submission of presentations is not required. You do need to submit a printed copy of your presentation however.*

Written work due in class must be submitted during the class time to the professor. Late work should be submitted in person to a member of NYU London staffing the Academic Office (Room 308, 6 Bedford Square) during office hours (Mon – Fri, 10:30 – 17:30). Please also send an electronic copy to academics@nyu.ac.uk for submission to Turnitin.

Work submitted within 5 weekdays after the submission time without an agreed extension receives a penalty of 10 points on the 100 point scale.

Written work submitted more than 5 weekdays after the submission date without an agreed extension fails and is given a zero.

**Please note** end of semester essays must be submitted on time.

**Attendance Policy**

NYUL has a strict policy about course attendance. **No unexcused absences are permitted.** While students should contact their class teachers to catch up on missed work, you should NOT approach them for excused absences.

Excused absences will usually only be considered for serious, unavoidable reasons such as personal ill–health or illness in the immediate family. Trivial or non-essential reasons for absence will not be considered.

Excused absences can only be considered if they are reported in accordance with guidelines which follow, and can only be obtained from the appropriate member of NYUL's staff.

**Please note that you will need to ensure that no make-up classes – or required excursions - have been organised before making any travel plans for the semester.**

**Absence reporting for an absence due to illness**

1. On the first day of absence due to illness you should report the details of your symptoms by e-mailing absences@nyu.ac.uk including details of: class(es) missed; professor; class time; and whether any work was due including exams. Or call free (from landline) 0800 316 0469 (option 2) to report your absences on the phone.

2. Generally a doctor’s note will be required to ensure you have sought treatment for the illness. Contact the Gower Street Health Centre on 0207 636 7628 to make an appointment, or use HTH general practitioners if you cannot get an appointment expediently at Gower Street.

3. At the end of your period of absence, you will need to complete an absence form online at [http://bit.ly/NuCl5K](http://bit.ly/NuCl5K). You will need to log in to NYU Home to access the form.

4. Finally you must arrange an appointment to speak to Nigel Freeman or Donna Drummond-Smart on your first day back at class. You must have completed the absence form before making your appointment.

Supporting documentation relating to absences must be submitted within one week of your return to class.

**Absence requests for non-illness reasons**

Absence requests for non-illness reasons must be discussed with the Academic Office prior to the date(s) in
question – no excused absences for reasons other than illness can be applied retrospectively. Please come in and see us in Room 308, 6 Bedford Square, or e-mail us at academics@nyu.ac.uk.

Further information regarding absences

Each unexcused absence will be penalized by deducting 3% from the student’s final course mark. Students are responsible for making up any work missed due to absence.

Unexcused absences from exams are not permitted and will result in failure of the exam. If you are granted an excused absence from an examination (with authorisation, as above), your lecturer will decide how you will make-up the assessment component, if at all (by make-up examination, extra coursework, viva voce (oral examination), or an increased weighting on an alternate assessment component, etc.).

NYUL also expects students to arrive to class promptly (both at the beginning and after any breaks) and to remain for the duration of the class. If timely attendance becomes a problem it is the prerogative of each instructor to deduct a mark or marks from the final grade of each late arrival and each early departure.

Please note that for classes involving a field trip or other external visit, transportation difficulties are never grounds for an excused absence. It is the student’s responsibility to arrive at an agreed meeting point in a punctual and timely fashion.

Please refer to the Student Handbook for full details of the policies relating to attendance. A copy is in your apartment and has been shared with you on Google Docs.

Grade conversion

NYU in London uses the following scale of numerical equivalents to letter grades:

- A=94-100
- A-=90-93
- B+=87-89
- B=84-86
- B-=80-83
- C+=77-79
- C=74-76
- C-=70-73
- D+=67-69
- D=65-66
- F=below 65

Where no specific numerical equivalent is assigned to a letter grade by the class teacher, the mid point of the range will be used in calculating the final class grade (except in the A range, where 95.5 will be used).

Grading Policy

NYU in London aims to have grading standards and results in all its courses similar to those that prevail at Washington Square.
