

With Virtual Urgent Care, It's Easier Than Ever to See an NYU Langone Doctor.

Did you know that you can easily receive care and treatment from world-class doctors right from your phone or tablet? NYU Langone's Virtual Urgent Care offers convenient video visits for a range of non-emergency health issues from the comfort of your own home or office.

With the NYU Langone Health app, our emergency medicine doctors are just a few taps away—schedule an appointment whenever you need us.

Benefits of Virtual Urgent Care

Quick & Convenient

Appointments are available every day of the week:

Monday through Friday 7AM–11PM

Saturday to Sunday 8AM–8PM

Access to World-Class Medical Care

Just like an in-person visit, our board-certified NYU Langone doctors can review your medical records, evaluate symptoms, order lab tests and prescriptions, and more.

Insurance is Accepted

With UnitedHealthcare, you could be covered for the cost of a co-pay.

What We Can Treat

Virtual Urgent Care is ideal for non-emergency health issues such as:

- Cold/Flu
- Urinary Tract Infections
- Fever (mild)
- Allergies
- Headaches (mild)
- Pink Eye
- Rashes
- Cough

The Virtual Urgent Care service is available to anyone 12 years of age and older. For children between the ages of 12 and 17, a parent or legal guardian must schedule and be present for the visit.

You must be physically located in New York, New Jersey, Connecticut, or Pennsylvania to use Virtual Urgent Care.
