

NYUWS IBC Keywords

Please use this list as a reference when reading project proposals to help you identify research that will need IBC approval.

Recombinant	Gene Therapy
Transgenic	Human Tissue
Animal	Bacteria
RNA/DNA	Toxins
Virus	Plant
Viral Vector	Insect
Pathogen	Drosophila
Nucleic Acids	Gene
Phages	Construct
Mycoplasma	GFP
Fungi	Primer
Parasites	Polymerase Chain Reaction (PCR)
Prions	Sequence
CDC/ NIH	Genome
Cell/ Cell Lines	In vitro/ In vivo
CRISPR: Cas9, Cas12, etc.	Knock out/ Knock in
