21% of NYU undergrads say that sleep difficulties impact their academic performance.

89% of NYU students say sleepiness during daytime activities has been a problem in the past 7 days.

Students who found sleep difficulties traumatic or very hard to handle within the last 12 months (%):
- Undergrad: 29.0%
- Grad: 22.2%
- Total*: 25.6%

Lower grades due to sleep difficulties (%):
- Undergrad: 15.3%
- Grad: 6.4%
- Total*: 10.9%

*also includes non-degree and other students
