A NOTE ABOUT 2017-18 INSURANCE

Whether you are feeling well and want to stay that way, or are facing illness and need help, it’s good to know that high value health insurance and health services are immediately accessible! This 2017-2018 Guide contains important information about the benefits and coverage available through the NYU Student Health Insurance Plan, the health and wellness services available through the NYU Student Health Center, and how they work together. Our simple objective is to enhance your health and well-being in support of your academic success.

We’re always trying to serve you better and three important features for 2017-2018 include:

• The NYU Student Insurance Health Plan has always offered access to high quality doctors, hospitals, pharmacies, and related services at a reasonable annual premium. In 2017-2018 the Plan will further expand access by changing from the Magnacare to the Cigna provider network. The Cigna network has a large regional and national presence alike that makes it easy for you to find participating providers no matter where you live or travel.

• The NYU Student Health Center is increasingly refining its student-centered model of care in which care revolves around you. Your care team consists of your Primary Care Provider (PCP), other medical providers who can assist you if your PCP is not available, Nurses, Medical Assistants, and Receptionists. Under this model, you can count on seeing coordinated health professionals who care not only for you but also about you.

• The Wellness Exchange remains your key to accessing the University’s extensive health and mental health resources designed to address your needs. You can call a private hotline (212-443-9999), available 24 hours a day, seven days a week, which will put you in touch with a professional who can help to address day-to-day challenges as well as other health-related concerns. The hotline is also available if you just need to talk or want to call about a friend.

Both the 2017-2018 Guide and The Student Health Center web site at http://www.nyu.edu/students/health-and-wellness/student-health-center.html contain a wealth of useful information about student health services and insurance at NYU. And if you have more questions, just contact us at either www.nyu.edu/health/insurance or (212) 443-1020. We welcome your questions and we’re here to help you any way we can.

Be Healthy!

Carlo Ciotoli, M.D., MPA
Associate Vice President for Student Health
Executive Director of the Student Health Center
