PREFERRED PROVIDER NETWORKS

Seeking care from in-network providers ensures maximum benefits and minimal out-of-pocket expenses for students since:

- healthcare providers who participate in the MagnaCare and MultiPlan preferred provider networks have agreed to accept lower fees for their services rendered, and
- student health insurance plans provide a higher percentage of coverage for in-network care than for out-of-network care.

Students can search for in-network providers by clicking on the links below:

**MAGNACARE** for providers in the New York and New Jersey area.

**MULTIPLAN** for providers across the United States including in NY/NJ.

SHC is a preferred provider under the NYU-sponsored Student Health Insurance Plans but considered out of network under other plans which utilize the MagnaCare & MultiPlan networks. In addition, the SHC is in Network for United Healthcare commercial products and the Oxford Freedom and Liberty networks.
