

New York University Presenters

Abstract ID	FirstName	LastName	Affiliation	Title	Session Type	Date	Student
137531	Marj	Alkhani	New York University College of Dentistry	Role of Foxo1 during skeletogenesis	Oral Session	Friday, July 16, 2010	N
139412	Kenneth	Aiken	New York University	The Effect of Computer Literacy on Academic Performance	Poster Session	Saturday, July 17, 2010	N
139920	Silvia	Argimon	New York University	Genetic Diversity of Virulence Traits in Streptococcus mutans Genotypes	Poster Session	Thursday, July 15, 2010	N
139735	Marta	Baldassari	New York University College of Dentistry	Fractographic analysis of clinical veneering chipping on zirconium-oxide restorations	Oral Session	Wednesday, July 14, 2010	N
139526	Walter A.	Bretz	New York University	Profiling the Dental Plaque Microbiome in Caries-Active and Caries-Free Twins	Poster Session	Saturday, July 17, 2010	N
139522	Hillary L.	Broder	New York University	Development of the Shortened Children's Oral Health Impact Profile (COHIP)	Oral Session	Saturday, July 17, 2010	N
135866	Page	Caufield	New York University	Determining Diversity of Lactobacilli in Dental Caries	Poster Session	Saturday, July 17, 2010	N
137881	Iosna	Chesnou-Matei	New York University College of Dentistry	Comparing PDGF-BB and BMP-2 release from CaSO4-filled and non-filled 3-D-scaffolds	Poster Session	Thursday, July 15, 2010	a Graduate
140657	Richa	Chibber	New York University	Relationship between 'belief in effectiveness' and participation in cancer screenings	Poster Session	Friday, July 16, 2010	a Graduate
127130	Paulo G.	Coelho	New York University	Current Trends on Endosseous Implant Bulk and Surface Design	Lunch and Learning	Thursday, July 15, 2010	N
127833	Ananda	Dasanayake	New York University	Mutans Streptococci story. Was it a 'window or a door'?	Lunch and Learning	Thursday, July 15, 2010	N
137472	Niloofar	Deyhim	New York University	The Role of Glucocorticoids in Dentistry	Poster Session	Saturday, July 17, 2010	a Graduate
139451	Erik	Dorthé	New York University	Evaluation of current predictive models for properties of medical composites	Oral Session	Saturday, July 17, 2010	a Graduate
139557	Monika	Epler	New York University College of Dentistry	Oraoist Mucoadhesive Disc for Relief of Dry Mouth	Poster Session	Thursday, July 15, 2010	N
136772	Joseph G.	Ghafari	American University of Beirut, Lebanese U, New York U	Component Analysis and Dominance in Treatment of Class II Malocclusions	Poster Session	Saturday, July 17, 2010	N
139947	Ou	Hajjaj	New York University	Potential CaP-based Treatment to Minimize Dentin Sensitivity and Bacterial Colonization	Poster Session	Saturday, July 17, 2010	an Undergraduate
140003	David Lachlan Campbell	Holmes	New York University	Chemical Treatments on Ti-Alloy Surfaces: Effect on in vitro Bioactivity	Poster Session	Saturday, July 17, 2010	a Post-graduate
137514	Wei Hsin	Hong	CTOR, NYU College of Dentistry	Expression of Chemokines and Chemokine Receptors During Orthodontic Tooth Movement	Oral Session	Wednesday, July 14, 2010	a Post-graduate
140673	Sabrina A.	Kamer	New York University	Could low-dosage of Doxycycline be considered for Alzheimer's disease treatment?	Poster Session	Saturday, July 17, 2010	an Undergraduate
139572	James	Keenan	New York University	Practice-based Research Assessment of Analgesic Effectiveness: PEARL Interim Findings	Oral Session	Friday, July 16, 2010	N
140739	Prachi	Khanna	New York University	Preliminary Evaluation of CaP/Gelatin Composites in Sheep Calvaria Defect	Poster Session	Saturday, July 17, 2010	a Graduate
136897	Edmund	Khoo	New York University	Osteogenic effect of high frequency forces on alveolar bone	Oral Session	Wednesday, July 14, 2010	a Post-graduate
139489	Lin	Li	New York University	Smoking and Drinking in Relation to Oral Hyperkeratosis and OED	Poster Session	Friday, July 16, 2010	a Post-graduate
139486	Eddy	Liao	New York University	Active Calcium Phosphate Glass as Viable Load Bearing Implant Material	Oral Session	Saturday, July 17, 2010	a Graduate
129536	Daniel	Malamud	NYU College of Dentistry	Update on Salivary Diagnostics for Systemic Diseases	Lunch and Learning	Thursday, July 15, 2010	N
140706	Dindo	Mijares	NYU	Synthetic Bone Mineral Prevents Bone Loss in OVX Rat Model	Oral Session	Thursday, July 15, 2010	a Graduate
139642	Ken	Oen	New York University	Partial vs. Complete Deep Caries Removal Treatment: PEARL Network Findings	Oral Session	Friday, July 16, 2010	N
133132	Bapanaiiah	Penugonda	New York University	Effects of LED and Halogen Operatory Lighting on Resin Composite	Poster Session	Saturday, July 17, 2010	N
133134	Mitchell	Pines	New York University College of Dentistry	Strength of Degradable 3-D Scaffolds for Critical Defect Bone Repair	Poster Session	Thursday, July 15, 2010	N
139014	Angela	R. Kamer	New York University	Periodontal Inflammation and Cognitive Function in an Older-Adult Danish Population	Poster Session	Friday, July 16, 2010	N
137539	Markos	Rapitis	New York University College of Dentistry	Inflammation, Bone Remodeling and Accelerated Tooth Movement	Poster Session	Friday, July 16, 2010	a Post-graduate
127185	Deepak	Saxena	New York University College of Dentistry	Influence of HIV-1 Infection and Therapy on the GI Microbiome	Symposium	Wednesday, July 14, 2010	N
137051	Andrew B.	Schenkel	New York University	Comparison of three chemical pre-treatments for reducing fissure sealant microleakage	Poster Session	Friday, July 16, 2010	N
134150	Amanda J.	Silverman	New York University	Malté Drinking and Oral and Oropharyngeal Cancer	Poster Session	Friday, July 16, 2010	a Graduate
139466	Howard	Spelman	New York University	Single Tooth Endodontic and Restorative Treatment Outcomes: PEARL Interim Findings	Oral Session	Friday, July 16, 2010	N
140105	Silvia	Spivakovskiy	New York University	The difficult task of assessing effective teaching	Poster Session	Thursday, July 15, 2010	N
132704	Leon	Su	New York University	Stress-Related Masticatory EMG Changes in Myofascial TMD Patients and Controls	Poster Session	Friday, July 16, 2010	a Graduate
137419	Cristina	Teixeira	New York University College of Dentistry	The Role of NO/CGMP Pathway on Endochondral Bone Formation	Oral Session	Friday, July 16, 2010	N
128566	Van	Thompson	New York University College of Dentistry	Evaluating Restorative Treatments for Teeth with Non-carious to Extremely Deep Lesions	Symposium	Wednesday, July 14, 2010	N
136059	Lukasz	Witek	New York University	Evidence for Pilot Testing and Pre-study Surveys	Poster Session	Thursday, July 15, 2010	a Graduate
138502	Mark S.	Wolff	New York University College of Dentistry	National Oral Health Survey of Children in Grenada	Oral Session	Wednesday, July 14, 2010	N
140127	Yu	Zhang	New York University, College of Dentistry, Department of Biomaterials and Biomimetics	Strength and sliding contact resistance of graded zirconia-glass restorative materials	Oral Session	Wednesday, July 14, 2010	N
