Assignment 13: 3–5 pages

Due Tuesday, December 12th at 8 P.M. Use Classes to submit this assignment. If you have a problem with Classes, send it by email to your preceptor.

Remember:

- Put your student number but not your name on your assignment. Assignments will be graded anonymously.
- No late papers.
- Use your own words—no quotations or paraphrases.
- Answer all questions, in order, the number preceding the answer. You can answer some of the questions very briefly, devoting most of your space to one or two questions.
- Remember, you must do one of the assignments after Assignment 7

1. What is a zombie system?
2. Give some examples of systems that may be zombie systems.
3. What is the difference between the dorsal and ventral visual systems?
4. What is the difference between Experience-Based Control and Experience-Based Selection?
5. Do the differences between the dorsal and ventral visual systems conflict with common sense?
