A Pre-employment physical is required. The NYU Health Center staff will be contacting you to schedule the pre-employment physical appointments.

The Pre-employment physical consists of two (2) appointments. One appointment is with the nurse for baseline testing and implantation of a tuberculosis skin test (also known as a PPD). The second appointment is for the actual physical examination with a healthcare provider and interpretation of laboratory testing. The Pre-employment clearance will be determined at the second appointment. It is important that you:

- ❖ **Complete the Waiver Form prior to your appointment**
- ❖ **Complete the history portion of the physical examination form PRIOR to seeing the healthcare provider at the second appointment.**

Please arrive **15 minutes PRIOR** to your **scheduled appointment** time to allow enough time to register with the receptionist.

The office is located at 726 Broadway at Waverly Place. The local subways are the N & R and the 4, 5, & 6. We are on the 4th floor of 726 Broadway. If you need further information please contact the receptionists at 212-443-1122.
