FEATURE : Sun Center of Excellence Event

[The Database of Recorded American Music](#)

By Lisa Kahlden

In the late 1990s, the consumer market for the compact disc, a format which had been a boon to the music industry through the earliest years of the decade, began to show signs of fatigue...

[The Afghanistan Digital Library Project](#)

By The Afghanistan Digital Library Editorial Team

Although Afghanistan's cultural heritage--monuments, art, and books--has suffered much damage and loss, particularly in the 1990s, much has remained protected in private and public collections outside the country...

Online Learning

[Lounge Lizards Online: Learning in a Blackboard Virtual Student Lounge](#)

By Marilyn Lawrence

When I enrolled in Tisha Bender's course on web-assisted teaching, *Online Institute 5*, sponsored in January 2002 by NYU's Center for Teaching Excellence, I was a skeptic. As a recent Ph.D., I knew that it was necessary to be familiar with teaching technologies...

Computing in the Arts

[Using Cumulus to Manage Your Multimedia Assets](#)

By Philip Galanter, Gary Shawver & Eric Stedfeld

Once upon a time, academic work was expressed mostly in text, with the occasional illustration, graph, or chart prepared by editorial assistants...

[SFX: Providing Easier Access to E-Journals and Other Digital Scholarly Resources](#)

By Gloria Rohmann & Tom McNulty

Have you ever had the experience of searching a database, finding a citation to an article you really want, and then wondering where to go to get the full text version? Is it in BobCat? Is it in one of those "packages" of e-journals, like JSTOR? Or maybe one of those huge general databases, like ProQuest?...

Academic Computing Services

[Wired Classrooms Update: New Rooms, Easier Reservations](#)

By John Bako

The University has expanded the inventory of "wired" (technology-equipped) classrooms available to the NYU community. Over the winter recess, two newly acquired floors at 194 Mercer Street...

[The Next Big Thing? The Promise of E-Portfolios at NYU and Beyond](#)

By Keith Adams

Student portfolios have been a significant part of higher education for decades. Across disciplines, students create collections of work that demonstrate their accomplishments, talents, and knowledge...

From the ITS Client Services Center

[About "Mail Delivery Subsystem" E-mail Messages](#)

By Eduardo De Leon

I have been receiving e-mail messages for the past 2-3 months that are from "Mail Delivery Subsystem" and say "Returned mail: see transcript for details" in the subject line...

[Read Article Online](#) | [Download PDF](#)

[What Are Full E-mail Headers?](#)

By Eduardo De Leon

All e-mails have two parts: a header and a body. The body is the main part of the e-mail, which contains the sender's message. The header is the part that contains technical information about the message...

Humanities Computing

Developing an Image Database for IFA's Aphrodisias Project

By Matt Zimmerman, Lorna Hughes & Christopher Ratté

For more than 40 years, teams of archeologists have been excavating and documenting the archeological site at Aphrodisias, Turkey. The Institute of Fine Arts (IFA) at NYU has been sending teams to participate in this activity since 1961...
