CONTENTS

Preface vii

Introduction: *What is Computational Linguistics?* xix

How to Use this Book: *A Pictorial Essay.* xxix

1.0. NATURAL INTELLIGENCE , LINGUISTICS , AND PROLOG .

- 1.1. The Information Society 1
- 1.2. An Old Theory of Computer Intelligence 8
- 1.3. A New Theory of Computer Intelligence 11
- 1.4. A Prolog Theory of Computer Intelligence 13
- 1.5. Why Study Linguistics and Prolog? 16
- 1.6. Natural Language Computing In Prolog 18
- 1.7. Artificial Intelligence Machines 21

2.0. HOW TO READ AND WRITE IN PROLOG .

- 2.1. Six Characteristics of Prolog Problems 24
- 2.2. How to Read and Write In Prolog 31
- 2.3. Four Steps to Running a Prolog Program 40
- 2.4. Running Shareware Prolog on an IBM PC 44

3.0. HOW TO LOAD, RUN, AND EDIT A PROLOG PROGRAM .

- 3.1. The Prolog Interpreter and Work Space 52
- 3.2. How to Load, and Run a Prolog Program 65
- 3.3. Running Prolog on an IBM PC 73
- 3.4. Modifying the Word Squares Program 77
- 3.5. The Edit–Prolog–Edit Loop 80

4.0. TABLES OF DATA AS PROLOG FACTS AND RELATIONS .

- 4.1. Converting Tables into Facts and Relations 83
- 4.2. How to Extract Information from Tables 92
- 4.3. Variables in a Query 94
- 4.4. Variables in the Database 97

4.5. Tables with holes: *cut*, *fail*, and an *empty category* 102

5.0. HOW PROLOG BACKTRACKS IN SEARCHES.

- 5.1. Information Retrieval: Bibliographic Searches 111
- 5.2. Searches with and without Backtracking 117
- 5.3. Backtracking Caused by Filters 121
- 5.4. Bound and Unbound Variables 129
- 5.5. Bounded and Unbounded Variables 132
- 5.6. A Blunder Popular with Beginning Programmers 137
- 5.7. Report Generation: Formatting Output and *write* 139

6.0. THE CANONICAL FORM OF A PROLOG RELATION.

- 6.1. Some Irregular Verbs in English 147
- 6.2. The Six Modules of a Prolog Program 150
- 6.3. The Bracketing of Logical Constituents 156

7.0. COMPUTATIONAL TOOLS FOR LANGUAGE PROCESSING.

- 7.1. The Levels of Human Language Structure 161
- 7.2. Morphological Parsers 180
- 7.3. Recursion: Affixes on the Affixes 195
- 7.4. Regular and Irregular Morphology 216
- 7.5. The Minimalist Framework 229

8.0. COMPUTATIONAL TOOLS FOR SENTENCE PROCESSING.

- 8.1. Syntax: Representations and Parsers 239
- 8.2. Rule Governed Creativity: Derivations 254
- 8.3. Parsers Assign Structure to an Ordered String 266
- 8.4. Top Down and Bottom Up Parsing 276
- 8.5. Horizontal Appends: Complement Structures 303
- 8.6. Vertical Appends: Selection Restrictions 319

APPENDICES.

- I. The Disk Included with this Book 328
- II. How to Access the New York University BBS 331
- III. Flavor Files 333
- IV. Looking into Prolog: *listing*, *trace*, and *breakpoint* 335
