The text of *Anamesa* is set in the old-style serif typeface Stempel Garamond, trademark of the Mergenthaler Linotype Company, first released in 1925 by D. Stempel AG. Stempel Garamond is a revival of the types cut by Claude Garamond (ca. 1480-1561) in Paris during the first part of the sixteenth century.

The sans serif typeface is part of the Univers family of fonts released by Linotype in 1997. Univers was originally designed by Adrian Frutiger in 1957 and was painstakingly reworked by Frutiger and Linotype for the updated 1997 version.

The *Anamesa* masthead is set in Marigold, a font originally designed by calligrapher Arthur Baker, and released by Agfa Compugraphic in 1989.
