### University Programs

**New York University**

**Master’s Program in GLOBAL PUBLIC HEALTH**

### Registration

For information on available courses, students should refer to the course directory as well as the program’s website. **Please note: the program website will provide the most up-to-date information on courses.** The Schedule of Classes as well as the program’s website will list prerequisites. Prerequisites may be waived, but only with the written permission of the instructor.

### Cross-School Registration

If you are a student at NYU and not enrolled in the Global MPH, before registering for a class in the Master’s Program in Global Public Health, consult your school’s Bulletin (and your departmental guidelines) regarding policies for registering for classes in other divisions. Then check our program’s website for course descriptions, prerequisites, enrollment restrictions and scheduling information. Finally, check whether your school requires written permission to take the course.

After obtaining your own advisor’s signature, you will need final permission from the Master’s Program in Global Public Health Administrative Office. For this approval, contact:

Marcia Thomas  
Administrative Director  
(212) 992-6741  
marcia.thomas@nyu.edu

### Certification of Status

You may need full-time status to be eligible for visas or deferment of student loans. If you register for 12 or more points, you are considered full-time and do not need to take any additional action. If you require full-time status for visas and/or financial aid, but register for less than 12 points you should contact the program’s Administrative Director at (212) 992-6741 to determine your eligibility.

### Maintenance of Matriculation

Any matriculated student wishing to take a leave of absence must obtain written approval from the Administrative Director before enrolling for Maintenance of Matriculation. A leave of absence may be granted for no more than two semesters and only after a minimum of 3 program credits have been completed.
