# join us!

We invite you to be our guest at one of NYU's premiere residence halls as a part of the Visiting Faculty Program. Our faculty guest suite provides you with a quality residential experience, and the program gives you a meaningful connection with NYU undergraduate students and New York City.

While staying in our guest suite, we will ask you to be engaged with our NYU undergraduate students in two ways:

**1.** A program or activity that will be advertised campus-wide and could be related to your research, academic discipline or area of passion. If you are at New York University as a visiting lecturer, the program may simply be an extension of this program.

**2.** A social event hosted in the apartment or the apartment of one of our NYU Faculty Fellows in Residence. This event would be open to both students and select guests.

The Office of Residential Life and Housing Services will provide the financial and logistical support for the programming required. Members of the Residential Life staff will meet with any co-sponsoring departments or speak with the guest faculty in advance. We will also be on-hand at both activities for guidance and support. From the moment you arrive, we will do all we can to make you feel welcome and comfortable in our home.
