

ASSIGNED RESPONSIBILITIES / CHARGE
Environmental Assessment Working Group
NYU Sustainability Task Force
2008-2009

Charge

The Environmental Assessment Working Group strives to utilize data to fully understand our environmental impacts, set realistic goals that make the most of the resources invested in sustainability, and enable us to track our progress over time.

Priority Projects / Topics for Development of Recommendations

- Shepherd the annual *Environmental Assessment* process
- Deepen analysis and develop a set of metrics and goals to include in the next Assessment
- Explore ecological footprinting, data-sharing, automation strategies
