

ASSIGNED RESPONSIBILITIES / CHARGE
Energy and Water Working Group
NYU Sustainability Task Force
2008-2009

Charge

Energy and Water is responsible for developing a comprehensive strategy to enable NYU to use energy and water more efficiently, seek clean and renewable sources of energy, and conserve energy and water wherever possible.

Priority Projects / Topics for Development of Recommendations

- Develop a comprehensive *NYU Climate Action Plan*
- Develop an *on-campus renewable energy generation* project
- Develop a local carbon-offsetting protocol
- Investigate the university budgeting process and opportunities for incentives
- Research best practices in efficiency and conservation
