

ASSIGNED RESPONSIBILITIES / CHARGE
Transportation and Recycling Working Group
NYU Sustainability Task Force
2008-2009

Charge

Transportation and Recycling is charged with developing projects and recommendations to improve NYU's environmental performance in the areas of mobility, waste management, and materials reuse, particularly with respect to the impacts of global warming, air pollution, and solid waste generation and disposal.

Priority Projects / Topics for Development of Recommendations

- *Develop a long-term transportation plan* addressing: NYU's bus fleet, owned vehicle fleet, Biking Report Green Grant, employee/student commuting incentives, faculty/staff travel and offsets
- Research waste management pilot projects, including single-stream recycling, new technoscrap and composting strategies
- Develop and launch an NYU RecycleMania competition
