Help your retirement money work as hard as you do

The earlier your contributions start, the longer your money can work through the power of compounding. Compounding happens when earnings on your savings get reinvested to generate additional earnings. Over time, compounding can fuel the growth of your savings.
Your employer’s retirement plan offers valuable benefits

Take advantage of:

**Convenience**
Contributions are automatically applied to your account.

**Tax deferral**
No taxes are taken on your contributions or their earnings, until you take money out of the plan.

**Diverse investments**
A variety of professionally managed investments are available to help build a portfolio based on your personal goals and risk tolerance.

**Pretax savings**
Every dollar you save is on a pretax basis (for federal, New York State and New York City, however, currently salary deferrals are subject to FICA tax withholding), which can reduce your current taxable income.
