

**September 26, 2019**  
**T-FSC Governance Committee**

---

In light of our first meeting of the fall (2019) and discussion, the TFSC Governance committee would like to submit the final, voted upon language additions to our rules to be officially implemented. Our body decided on this language specific to guests with explicit expertise as needed on topics, leaving room for individual requests from former senators to join our Council meetings as observers under the guidelines of Roberts Rules on a case by case basis, with requests from former senators made to the Chair and/or invitations from current, elected Council members. We will add the following Council Rule amendment (ADD to TFSC Rules, an additional numbered item to Section I Composition, on page 4 after I.4.e):

5. Council Meeting Guests.

- (a) The Tenured/Tenure Track Faculty Senators Council (specifically Senators and Council Committee Chairs in consultation with the Executive Committee and/or the Executive Committee) will be able to invite guests on occasion to address the Council. These guests are restricted to be individual(s) who can speak to specific issues deemed important for the Council to consider.
