INDEPENDENT STUDY SYLLABUS:
Students will be required to attend fourteen events throughout the course outside of class time that have been agreed in advance with the Instructor and the Graduate Programme Coordinator. Students will be given a list of websites to check for events and will be required to attend one event each week that has been agreed with the professor. Independent Study activities may also be related to students’ particular thesis topics. There will also be group visits to Westminster Reference Library, the National Art Library, the Victoria and Albert Museum, the RIBA Library, the Westminster Archive, the Library of the Institution of Civil Engineers and Guildhall Library.

Assessment Component: The assessment will be based upon evaluation of the submitted Notebook, containing notes, comments and analysis of all lectures, conferences, exhibitions and specially arranged visits to buildings that the student has attended throughout the course. This will be the sole component of the grade for the course.
