Re: Deadline extension for design feedback

---

Dear Ms Hurley,

The members of the Open Space Oversight Organization (OSOO) request a three-month extension of the proposed September 15, 2013 date to **December 15** to provide feedback on open space concept ideas to NYU. We believe the extension would give OSOO adequate time to engage the community and follow an appropriate outreach process that would better garner input from the affected stakeholders.

Please contact us if you have any questions regarding the proposed extension. We will be in touch soon.

Thank you.

Sincerely,

Members of OSOO:

**William Castro**, Manhattan Borough Commissioner, Parks & Recreation

**Terri Cude**, Arts and Institutions Committee Chair, Community Board 2

**Arthur Tannenbaum**, Ph.D., Associate Curator, Collections & Research Services/Humanities-Social Services, Division of Libraries, New York University

**Matthew Viggiano**, Director of Land Use and Planning, City Council District 2

**Lin Zeng**, Deputy Director of Land Use and Planning and Development, Manhattan Borough President's Office
