

# With Virtual Urgent Care, It's Easier Than Ever to See an NYU Langone Provider.

Did you know that you can easily receive care and treatment from NYU Langone providers right from your mobile device? Virtual Urgent Care offers convenient video visits for a range of non-emergency health issues from the comfort of home.

With the NYU Langone Health app, our emergency medicine providers are just a few taps away—schedule an appointment whenever you need us.

### Benefits of Virtual Urgent Care

**Quick & Convenient**

Appointments are available on demand until midnight, 365 days a year

**Most Insurance Plans Accepted**

**What We Can Treat**

- |  |                             |
|--|-----------------------------|
| COVID-19/Flu                           | Allergies                   |
