1. Discussion with Provost David McLaughlin

Questions/Topics Sent in Advance to Provost McLaughlin

- The role of Departments at the Square in the hiring and advancement of faculty at the portals, and the procedures for actualizing that role.
- The rationale for requiring tenure-track hires at the portals to be associated with a NY-based graduate program. (The reasoning and principles behind the recent "minimal conditions" memo.)
- Possible "models" for the status of the portals: In what ways can they be thought of as similar to or different from NYU schools?
- Leadership and organizational structure for the Global Network, going forward. Thoughts on new "Vice Chancellor" or "Dean" roles for Global?
- Anticipated growth of enrollment numbers at the sites? Plans for adding more "freshman" programs at any of the sites?
