

## Success Plans Overview

Success Plans guide students through a set of steps, assignments, and/or meetings. They are given to a student by their advisor, allowing the advisor to track the student's progress through the Plan and have conversation about their experience.

Students can see their Success Plan on their Dashboard in NYU Connect, seeing the due dates on their calendar and tracking their progress.

Advisors can add, edit, and monitor the Plans, using them to guide the student through a particular process or set of expectations, and can complete the items once they have a conversation with the student. Each plan can be customized to the student to ensure their success.
