About this Book
This collection of essays explores the ways in which the defense of liberty can be bolstered by use of a dialectical method—that is, a mode of analysis devoted to grasping the full context of philosophical, cultural, and social factors requisite to the sustenance of human freedom. Its strength lies in the variety of disciplines and perspectives represented by contributors who apply explicitly dialectical tools to a classical liberal / libertarian analysis of social and cultural issues. This volume will be the first one of its kind to bring together accomplished scholars in political science, economics, philosophy, aesthetics, psychology, law, history, education, and rhetoric.

About the Editors
Roger E. Bissell is research associate with the Molinari Institute
Chris Matthew Sciabarra was visiting scholar at New York University
Edward W. Younkins is professor of accountancy and executive director of the Institute for the Study of Capitalism and Morality at Wheeling Jesuit University

Endorsement:
"This stimulating collection maps out exciting new directions in the philosophy of liberty. The essays are authored by some of the best minds in scholarly libertarian thought today. Whether you are a libertarian or not, you will find many important -- and challenging -- ideas developed here. An important and lively book."
— Mario Rizzo, New York University
