This application profile is meant to help users find the location of any episode of season 7 of “Rupaul’s Drag Race.” Although the television show is aired on live television sporadically, it is available for on-demand streaming on the network’s (Logo) web application. Users can search for episodes based on the title or subjects, or can look for the episodes specifically available online. The element types that are referred to as “instantiations” refer to the episodes available online. Below are the entities described to facilitate understanding of and access to these records.

### Entity: Episode

<table>
<thead>
<tr>
<th>Element Name</th>
<th>Title of Episode</th>
</tr>
</thead>
<tbody>
<tr>
<td>Data element</td>
<td><code>&lt;pbcoreTitle&gt;&lt;title&gt;</code></td>
</tr>
<tr>
<td>Definition</td>
<td>Title of specific episode</td>
